Workplace Now

The survival skill of
the 21st century is the ability to
skill and reskill rapidly.

Workplace Now

The survival skill of the 21st century is the ability to skill and reskill rapidly. While tech skills remain vital for thriving in a post-pandemic economy, human skills, neglected for many years, are now the key to unlocking personal and business success.

Workplace Now is a suite of content that builds these essential human skills needed in every job, now and into the future.

Workplace Now presents a new program to rapidly develop these core human skills.

Who is Workplace Now for?

Workplace Now is designed to develop core human skills needed in the business world.

The content has been designed to slot seamlessly into several corporate learning programs, including:

- Graduate programs
- New hire programs
- Business-wide upskilling/reskilling programs

Key Learning Features

Established learning techniques form the backbone of each learning module to lead to stronger learning outcomes. Key learning features of the program include:

- Modules are delivered in micro-learning units - a technique proven to aid learning while minimizing digital fatigue.

- Engaging teachers use direct instruction in video presentations to explain and lead learning throughout the program.

- Media rich lessons offer clever and memorable animations and interactions providing easy ways to quickly acquire the new habits and procedures to be successful in the workplace.

- Take it to Work suggestions, exercises, and resources deliver an immediate practical payback so successful work habits can be applied in a work setting.

↘ Learning Modules

1. Building Collaboration and Communication Skills
2. Productivity Skills
3. Developing Your Digital Image
4. Critical Thinking
5. Problem Solving Skills
